Editor's Note: If you are looking for some Electric  
Planes or equipment consider the following: I re-  
ceived the following Email from a person who is  
selling Don Gerwitz's RC stuff. (If you remember I  
told you in the last newsletter that he passed away.)  
Anyway here is a partial copy of that Email.

My name is Lance Ginsburg and I'm with a company  
called ITS SOLD HERE. We are handling the sale of  
Don's RC planes, equipment, etc....

Many of the smaller items like the motors will be on  
eBay. They can be found by going to .

<http://stores.shop.ebay.com/ITS-SOLD-HERE>

Items will be added every week. Not every item will  
be there at any one time. So you will need to look  
often.

Most of the planes are just too big to ship so we  
have decided to sell most to all of them at the, 14<sup>th</sup>  
Annual R/C Flea Market & Open House sponsored  
by BUCK COUNTY R/C CLUB

I happen to have two pictures of Tom's Plane mentioned in the club minutes.

Shown above is Tom Perkin's new Twin engine "A-20 HAVOC", with two 4 cycle motors, 9 Servos and Retracts. Tom made the Rear gun turret swivels in sync with the Rudder. (Nice Job Tom) That's Tom in the background on the right.
